CODE OF PROFESSIONAL CONDUCT AND PRACTICE

for registrants with the Education Workforce Council (EWC)
The EWC

The EWC is the statutory, self-regulating professional body for education practitioners in Wales. It seeks to raise the status of workers in education and training by maintaining and promoting the highest standards of professional conduct and practice in the interests of registrants, learners and the general public.

The EWC was established under the Education (Wales) Act 2014 and regulates:

- qualified school teachers
- school learning support workers
- further education teachers (lecturers)
- further education learning support workers
- work based learning practitioners
- qualified youth workers
- qualified youth support workers

Its primary aims are to:

- contribute to improving the standards of teaching and the quality of learning in Wales;
- maintain and improve standards of professional conduct amongst registrants in the education workforce in Wales;
- safeguard the interests of learners, parents and the public and maintain public trust and confidence in the education workforce.

The Code

The Education Workforce Council (Main Functions) (Wales) Regulations 2015, as amended, stipulates a Code must be published which specifies the standards of professional conduct and practice expected of persons registered with the EWC.

This Code sets out the key principles of good conduct and professional practice EWC registrants uphold, and is intended to inform, support and guide all in their day to day conduct and practice. It is also information for parents, the public and stakeholders involved in the education of learners in Wales, and learners themselves, as to the standards they can expect from registrants.

Failure by a registrant to adhere to the Code may call their registration with the EWC into question. The EWC has legal powers to investigate and hear cases of alleged unacceptable professional conduct, serious professional incompetence and criminal offences involving registrants. Every case is investigated on its own merits, including the employment context (the sector / practitioner role) involved. The Code is applied proportionately to any facts found proven in a particular case.
