Meeting ID: 913 3198 6781
Passcode: 875838

This webinar will present the main findings of IIEP-UNESCO's new case study on open budget in Ukraine.

The study forms part of IIEP's ongoing research on 'Open government: Learning from experience'. It focuses on an innovative online open budget platform developed by a Ukrainian civil society organization. Participants will discuss key takeaways and lessons learnt from this experience. They will address questions such as: What is the the goal of introducing open budget? How do various school stakeholders view the initiative? What are the advantages, challenges and conditions for introducing digital platforms for open school budgets?
